

WOW! Business Delivers High-Speed Internet Service to Businesses in Southeast U.S.

Cities in Alabama, Florida, Georgia and Kansas Join Five Midwest Markets as the First to Receive WOW! Business 110 Mbps Internet Service

ENGLEWOOD, Colo. – (Jan. 15, 2015) – [WOW! Business](#), a communications and cloud service provider, has begun rolling out high-speed Internet service to businesses in Alabama, Florida, Georgia and Kansas as the company continues its broad deployment of new plans that deliver up to 110 Mbps downstream and 15 Mbps upstream. Today’s announcement includes Auburn, Huntsville, Montgomery and Valley, Ala.; St. Petersburg and other parts of Pinellas County, Fla.; Columbus, Ga.; and Lawrence, Kan.

The 110 Mbps service, delivered by cable modem, complements the expanding WOW! Business service lineup of Internet, voice, data and cloud computing services. The new faster Internet service is intended for businesses that have outgrown their current plans and require more bandwidth tailored to suit their emerging broadband needs. In addition, WOW! Business has increased the speed of its most popular service from 15/2 Mbps to 30/5 Mbps and no longer requires bundled voice to receive the best pricing. Download/upload speed tiers of 8/1 Mbps and 60/5 Mbps are also available.

“We’re continuing our aggressive roll-out of high-speed Internet service in the Midwest and Southeast with plans that give businesses in the markets we serve a flexible and affordable option to DSL and other high-speed Internet services,” said Brad Cheadle, senior vice president of WOW! Business. “Our higher speed Internet plans can be obtained directly through WOW! Business and indirectly through Americomm, CNSG, TBI, Telegation and other members of our Partner Alliance program.”

WOW! Business provides IP-based network, data, voice and cloud services for small and mid-sized business, enterprise, government and wholesale customers. The company owns and operates more than 40,000 miles of local fiber-optic and coaxial networks in the Southeast, Mid-Atlantic and Midwest which, along with its data centers, provide customers with scalable, low-latency access to national carrier backbones.

“Our new higher speed Internet plans can help businesses increase productivity and customer satisfaction, while enabling them to more efficiently use the WOW! Business cloud infrastructure for offsite data backup and recovery, IaaS and our other cloud computing services,” commented Steve Gorman, WOW! vice president of product management. “With

double the download and triple the upload speeds, we've significantly enhanced the WOW! Business portfolio of high-speed Internet plans to meet growing demand for these and other services we provide in the Midwest, Southeast and mid-Atlantic parts of the country."

Today's announcement follows the introduction of 110 Mbps Internet service in Chicago, Cleveland, Columbus, Ohio; Detroit and Evansville. For more information about WOW! Business SMB, enterprise and wholesale services please visit [WOW! Business](#).
