

Hosted VoIP Polycom VVX300 & VVX400 Quick Reference Guide

Let's Get Started

Common Actions When Using Your IP Phone

Placing or Answering Calls

To place or answer a call, you can pick up the handset, press the Speaker  or Headset  button, or press a line button. When the speaker is on, the button glows green.

Putting a Call on Hold

To put a call on hold, press the Hold  button. The caller hears a series of three rapid beeps or music while on hold. To resume the call, press the flashing red line button for the call.

Muting a Call

To mute the phone, speaker, or headset, press the Mute  button. The button glows red when muted. Press the Mute button again to unmute.

Ending a Call

If you are using the handset, hang up or press the EndCall button. If you are using the speakerphone, press the Speaker button. If you are using the headset, either press the Headset button (wired) or replace the handset (wireless).

Adjusting Volume

To adjust the volume of your ringtone or during a call: Press  to increase the volume, or press  to decrease the volume. Press Save.

Call Forward

To enable call forwarding, press Forward from the Home or Lines view. Select the forwarding type to enable, enter a forwarding number, and press Enable. To disable call forwarding, press Forward from Home or Lines view, select the forwarding type to disable, and press Disable. To enable per-call forwarding: As your phone rings, press Forward, enter the forwarding number, and press Forward.

Call Transfer

From Calls view, press Transfer or , select Consultative, and call the other party. When you hear the ringback tone, or after you talk with the other party, press Transfer or  again. To transfer a call without waiting for the other extension to answer, press and hold Transfer until the menu appears and then select Blind.

Parking Calls

To park a live call, select Park. Listen to the message which identifies the extension the call is parked on, then notify the intended recipient(s). To pick up the parked call, the recipient dials the extension that the call was parked on.

A detailed Hosted VoIP User Guide can be found at: <http://www.wowforbusiness.com/support>

WARNING: You will not be able to access E911: (i) in the event of a power outage; (ii) in the event of a Company network outage; (iii) if you use your VoIP phone service outside of the Company's network; or (iv) during periods when your broadband connection is unavailable. Also, any E911 call placed from this phone will be linked to the authorized address where your VoIP phone service was originally provisioned. If you move the physical location of your VoIP phone from the original service location, a call placed to E911 from the new location will still be linked back to, and identify, the original service location.
